

## Client Solutions

# Crescent Top Restaurant Conveyor

*Plate on Line*

### Problem

Customer was looking for a polished sanitary stainless steel conveyor to be the centerpiece of his new restaurant in New York City. Design needed to convey prepared product in a radius on an endless belt.

### KLEENLine Solutions

Developed a proprietary stainless steel conveyor belt and drive system to convey product in an endless circle.

Result customer thrilled with conveyor and requested KLEENLine field service crew complete some architectural sheet metal work in the restaurant based on the quality of the finished work.
