

## **Ultra-Sanitary Troughing Conveyor**

**Reduce Cleaning Cost, Minimize Down Time and Avoid Contamination**

**Built to exceed USDA standards for:**

**MEAT & POULTRY  
DAIRY  
PHARMACEUTICALS  
CONFECTIONERIES  
BAKER GOODS  
PREPARED FOODS**

**AND MORE.....**

**Designed to set a new sanitation standard for wash-down conveyors. The Kleenline Ultra-Sanitary Conveyors provides the state-of-the-art in cleanability, reliability and performance.**

### **Features and Benefits:**

- Rugged, sanitary design that can be washed down for quick, easy clean up featuring continuously welded polished stainless steel round tubing frame
- Totally enclosed stainless steel motor drive pulley for trouble free drip proof operation
- V-guide design for positive belt tracking
- Stainless steel rod belt supports and UHMW return rollers provide minimum contact points between frame and belt
- Flexible design and belting options available to meet custom process requirements

**Cantilever frame design and quick release tail pulley allow for belt removal with no tools required.**
